About Us

Evergreen Solar & Power Solutions was incorporated in January 2020, for the last 5 years we took intensive effort for the Renewable Energy technology, to take Electricity as one of its strategic sources to generate power.

Due to the current Dilemma of power source generation all over the world and encouraging to GO GREEN (depending on Renewable Energy Sources) plus the advantage of being one of the best countries all over the world in Sun light intensity all over the year, Government started to really encourage and direct investments in this sector which an effective solution to the shortage in power resources.

**Integrity**  
We believe this is key to any successful relationship. It is important to Evergreen Trust that our clients and team members have a strong foundation of trust in each other.

**Ethical Conduct**  
We believe this is the cornerstone of good business. We are committed to honesty and high morals in all dealings, both internally and externally.

Our Vision

- To be an innovative and competitive Renewable Energy Enterprise providing total solutions to customers of Renewable Energy Products and Services.

Our Mission

- To be a leading Renewable Energy enterprise, providing superior quality products and services at competitive prices.

SOLAR ENERGY

Energy from the Sun that converted into electricity using PV panels.

- Solar panels turn sunlight into DC energy.
- Inverter converts the DC energy to AC electricity.
- Service Panel distributes power where needed through your home.
- Utility meters track energy produced and energy used.
- Grid connection ensures access to continuous power at light.
